

Miguel OLMOS

I am Dr. Miguel Olmos, a dedicated dermatology oncology surgeon currently serving as the President of the Colombian Association of Dermatological Surgery.

In addition to leading the San Jose Hospital Dermatology service, I proudly hold the role of Deputy Treasurer at CILAD.

My expertise centers around pivotal areas such as skin cancer, Mohs surgery, oncology surgery, and the reconstruction of oncological defects.

I am passionate about promoting photoprotection, and honored to contribute to the advancement of dermatological care.

As an ambassador for the conference, I look forward to sharing insights and collaborating with fellow professionals in these critical areas.
